2 READING  Read Jenny's blog. Are sentences 1–9 'Right' (a) or 'Wrong' (b)? If there is not enough information to answer 'Right' (a) or 'Wrong' (b), choose 'Doesn't say' (c).  My great grandmother, Beatrice, was always looking for the next adventure in her life! She trained as an engineer, which was really unusual at the time, and later as a pilot. She became one of the first female pilots to fly across the Atlantic in the 1930s. She took a navigator with her. A journalist also wanted to join them on the flight but there was simply no room for him in the plane. On her hundredth birthday we had a big family celebration and she showed me some of her early photos. She told me about her famous flight and said the only thing that really worried her wasn't the bad weather, but the fact that they only just had enough fuel. Later in her life, she wanted to teach other pilots to fly, but that never happened because she was always too busy! I want to be a pilot too, but flying an aeroplane now is very different from Granny Beatrices's experiences! You rely on computers more than people but I still think it's a really exciting career choice!  1 Beatrice liked having exciting experiences.  a Right  b Wrong  c Doesn't say  3  Beatrice flew across the Atlantic more than once.  a Right  b Wrong  c Doesn't say  4  There was a navigator and a passenger on Beatrice's important flight.  a Right  b Wrong  c Doesn't say  5  Jenny was shown pictures of Beatrice's plane at a birthday party.  a Right  b Wrong  c Doesn't say  6  Beatrice world more about a storm than how much fuel was left.  a Right  b Wrong  c Doesn't say  6  Beatrice also helped train other people to become pilots.  a Right  b Wrong  c Doesn't say  8  Jenny is having flying lessons so she can become a pilot, too.  a Right  b Wrong  c Doesn't say  9  Jenny thinks it's great that flying modern planes is so different.	6	Javden thinks Greta is
